

State of Rhode Island Newport Evacuation Zone Map Neighborhood and Street Listings

The street listing below is a reference to geographic areas that are identified on the State of Rhode Island’s Hurricane Evacuation Map. Areas affected (in green on the map), are subject to evacuation during hurricanes classified on the Saffir-Simpson Hurricane Wind Speed Scale, as follows:

Hurricane Forward Speed (MPH)			
	0-20	21-40	41+
Category 1			
Category 2			
Category 3			

Hurricane strengths, forward speed, or categories greater than described above may require the expansion of evacuation areas.
